Stage 5 Graphics 200-hour Master Program

Communication Technology: Graphics - course 1692 - Year 9 and Year 10 alignment | **Version 1.0 - local provisional**

Syllabus	Communication Technology 7-10 Syllabus (2025) - all nine CMT5 outcomes	**Official duration**	200 hours; local Year 9/Year 10 distribution Teacher to confirm
Year 9	40 provisional blocks across four source-ready modules; no hour claim	**Year 10**	Four sister modules; CMT5 transition planned but not accepted
Course shape	Four project/folio allocations; three drawing contexts; two additional focus areas; collaboration	**CAD**	Onshape is the only CAD pathway; companion software separately authorised
Assurance gaps	Practical/project majority by hours remains unconfirmed until the local timetable is mapped	**Assessment**	All task names, weightings, dates, notifications and submissions Teacher to confirm

Stage 5 outcomes

Code	Official outcome wording
CMT5-SAF-01	applies risk management and safe work practices in communication technology contexts
CMT5-COM-01	communicates ideas, concepts and solutions through design and production
CMT5-DEP-01	selects and applies technical and practical skills for design and production
CMT5-DES-01	applies design principles, standards and conventions in the production of projects
CMT5-DES-02	designs products and solutions for a range of purposes and audiences
CMT5-USE-01	selects and uses equipment and software in the design, development and presentation of communication technology solutions
CMT5-ENV-01	evaluates the purpose, functionality and environmental impacts of products and solutions
CMT5-PMP-01	selects and applies processes for the planning and management of communication technology projects
CMT5-IET-01	assesses the impact of current and emerging technologies used in communication technology production

Official sources: **Communication Technology 7-10 Syllabus (2025)** and **Stage 5 outcomes**. This is a school-developed, NESA-aligned program; it is not NESA-approved.

Master course requirements

Requirement	Planned allocation	Current state / next action
Communication Technology principles and project management core	Year 9 M01-M04; Year 10 M01-M04	Mapped across both years; Year 10 CMT5 transition acceptance required.
Drawing systems core using at least two drawing systems contexts	Product (Year 9); architectural and engineering (Year 10 transition)	Y9 product context is source-ready provisional; both Y10 contexts require acceptance.
At least two additional Graphics focus areas	Y9 M03 modelling/prototyping; Y9 M04 graphic design/communication	Both source-ready in Year 9; no unsupported third focus area is claimed.
At least four graphics projects, each with associated folio documentation	Y9 Projects A-B; Y10 Projects A-B - names Teacher to confirm	Four allocation shells; all names, briefs and formal status Teacher to confirm.
At least one collaborative activity	Y9 block 39 collaborative critique	Planned; grouping, privacy and adjustments Teacher to confirm.
Practical experiences and project work form the majority of course time	Y9 28/40 by block count; Year 10 hours Teacher to confirm	70% of Y9 blocks is not an hours claim; confirm timetable and a majority above 100 hours.
Program all nine Stage 5 CMT5 outcomes	All nine CMT5 codes across the master	All nine are planned; Year 10 outcome claims remain unaccepted pending audit.

Year 9 Module 1: Drawing Foundations and Visual Communication

Provisional Year 9 blocks 1-10 - no hour claim

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
Y9-01	Site/theory	Course boundary, risk-aware start and line language	**M01S01: Safe studio, instruments and line language** - Introduce the course as Year 1 of the 200-hour elective.	Risk management, safe and responsible practice, resource selection and clear graphic communication.	Annotated risk-thinking scenario. Outcomes: CMT5-SAF-01, CMT5-COM-01.
Y9-02	Practical	Instrument selection and line-purpose practice	**M01S01: Safe studio, instruments and line language** - Under current teacher direction, select an appropriate manual drawing-tool category and produce a small line-language sample.	Apply manual drawing techniques and conventions to communicate graphic information.	Teacher-observed tool-selection reasoning. Outcomes: CMT5-SAF-01, CMT5-DEP-01, CMT5-DES-01, CMT5-USE-01.
Y9-03	Project/folio	Safe-studio and line-language evidence package	**M01S01: Safe studio, instruments and line language** - Complete the section activity, ten-question knowledge check and scaffolded response.	Document decisions, apply feedback and communicate responsible practice.	10 checked MCQs. Outcomes: CMT5-COM-01, CMT5-DES-01, CMT5-PMP-01.
Y9-04	Site/theory	Sketching, construction and rendering as different communication moves	**M01S02: Sketching, rendering and geometric construction** - Distinguish exploratory sketching, controlled geometric construction and rendering.	Develop 2D and 3D manual representations using geometric construction and drawing techniques.	Three-state visual annotation. Outcomes: CMT5-COM-01, CMT5-DEP-01, CMT5-DES-01.
Y9-05	Practical	Geometric construction and coherent rendering	**M01S02: Sketching, rendering and geometric construction** - Construct a teacher-supplied source-safe geometric form, then add line weight, shade and surface cues from one consistent light direction.	Apply geometric techniques including bisection, symmetry, translation, tangency, ellipses or regular polygons as appropriate.	Construction sequence. Outcomes: CMT5-DEP-01, CMT5-DES-01, CMT5-USE-01.
Y9-06	Project/folio	Sketch-to-render evidence package	**M01S02: Sketching, rendering and geometric construction** - Complete the section activity, knowledge check and capstone.	Develop, annotate, evaluate and communicate design ideas through folio evidence.	10 checked MCQs. Outcomes: CMT5-COM-01, CMT5-DES-02, CMT5-PMP-01.
Y9-07	Site/theory	One object, coordinated views and controlled dimensions	**M01S03: Views, projection and dimensioning** - Reason from a 3D object to coordinated principal views.	Communicate using orthogonal and pictorial drawing systems, projection conventions and dimensions.	Object-to-view reasoning map. Outcomes: CMT5-COM-01, CMT5-DES-01, CMT5-USE-01.
Y9-08	Practical	Coordinated view and dimensioning practice	**M01S03: Views, projection and dimensioning** - Produce or repair a coordinated set of views for a teacher-supplied fictional object.	Apply drawing systems and dimensioning conventions to communicate design information.	Coordinated view set. Outcomes: CMT5-DEP-01, CMT5-DES-01, CMT5-USE-01.
Y9-09	Project/folio	Views, projection and dimensions evidence package	**M01S03: Views, projection and dimensioning** - Complete the section activity, knowledge check and capstone.	Document and evaluate graphic communication decisions.	10 checked MCQs. Outcomes: CMT5-COM-01, CMT5-DES-01, CMT5-PMP-01.
Y9-10	Project/folio	Module review and Project A foundation checkpoint	**M01 review and project checkpoint** - Review all three learning packages, select progression evidence and record the next Onshape need.	Manage project evidence, use feedback and evaluate progress against intended communication needs.	m01 review checklist. Outcomes: CMT5-COM-01, CMT5-DES-01, CMT5-PMP-01.

Year 9 Module 2: Onshape Product Drawing

Provisional Year 9 blocks 11-20 - no hour claim

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
Y9-11	Site/theory	Onshape document map, sketch planes and constraints	**M02S01: Documents, sketch planes and constraints** - Explain document, tab, Part Studio, sketch, part and drawing.	Use CAD to develop accurate drawing and modelling information.	Onshape document concept map. Outcomes: CMT5-DES-01, CMT5-USE-01.
Y9-12	Practical	Constrained Onshape sketch	**M02S01: Documents, sketch planes and constraints** - Create a source-safe beginner sketch on a deliberate plane, apply meaningful geometric relationships and dimensions.	Apply CAD techniques, geometric relationships and dimensions to produce controlled graphic information.	Constrained sketch screenshot. Outcomes: CMT5-SAF-01, CMT5-DEP-01, CMT5-DES-01, CMT5-USE-01.
Y9-13	Project/folio	Constraint-intent evidence package	**M02S01: Documents, sketch planes and constraints** - Complete the section activity, knowledge check and capstone.	Document development, explain decisions and retain evidence of iteration.	10 checked MCQs. Outcomes: CMT5-COM-01, CMT5-DES-01, CMT5-PMP-01.
Y9-14	Site/theory	Features, history and robust design intent	**M02S02: Features, accuracy and design intent** - Trace an ordered Onshape feature history and distinguish New, Add, Remove and Intersect results.	Apply CAD modelling concepts such as add, extrude, pattern, shell and subtract in product drawing.	Feature-history dependency trace. Outcomes: CMT5-DEP-01, CMT5-DES-01, CMT5-USE-01.
Y9-15	Practical	Onshape feature sequence and change test	**M02S02: Features, accuracy and design intent** - Build a small source-safe model from a constrained sketch, add a limited feature sequence.	Use CAD modelling tools to produce and modify product representations.	Feature tree screenshot. Outcomes: CMT5-DEP-01, CMT5-DES-01, CMT5-USE-01.
Y9-16	Project/folio	Feature-history evidence package	**M02S02: Features, accuracy and design intent** - Complete the section activity, knowledge check and capstone.	Use folio records, feedback and evaluation to explain development and improvement.	10 checked MCQs. Outcomes: CMT5-COM-01, CMT5-DES-01, CMT5-PMP-01.
Y9-17	Site/theory	Model, drawing, export and version as different information states	**M02S03: Drawings, dimensions, exports and versions** - Separate the editable model, a drawing with selected views and dimensions, a purpose-selected export and an immutable named version.	Develop and present digital drawings using appropriate views, dimensions and formats.	Workspace-version-export comparison. Outcomes: CMT5-COM-01, CMT5-USE-01, CMT5-PMP-01.
Y9-18	Practical	Onshape drawing and controlled handoff	**M02S03: Drawings, dimensions, exports and versions** - Create a drawing from the source-safe model, add selected standard/projected views and necessary dimensions.	Use CAD drawings, views, dimensions and presentation formats to communicate a solution.	Onshape drawing screenshot. Outcomes: CMT5-DEP-01, CMT5-DES-01, CMT5-USE-01, CMT5-PMP-01.
Y9-19	Project/folio	Drawing, export and version evidence package	**M02S03: Drawings, dimensions, exports and versions** - Complete the section activity, knowledge check and capstone.	Document project development, communicate decisions and evaluate evidence.	10 checked MCQs. Outcomes: CMT5-COM-01, CMT5-DES-01, CMT5-PMP-01.
Y9-20	Project/folio	Module review and Project A folio gate	**M02 review and project checkpoint** - Review all three Onshape packages; connect sketch, feature history and controlled drawing-handoff evidence.	Manage, evaluate and communicate a project through an evidence-bearing folio.	m02 review checklist. Outcomes: CMT5-COM-01, CMT5-DES-02, CMT5-PMP-01.

Year 9 Module 3: Graphic Modelling and Prototyping

Provisional Year 9 blocks 21-30 - no hour claim

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
Y9-21	Site/theory	**Research evidence, brief, specification and concept choice**	**M03S01: Product research, brief and concept choice** - Move from image collection to purposeful research.	Plan graphic modelling and prototyping through specifications, production processes, sketches, working drawings and lists.	Research evidence classification. Outcomes: CMT5-DES-02, CMT5-ENV-01, CMT5-PMP-01.
Y9-22	Practical	**Product evidence audit and concept generation**	**M03S01: Product research, brief and concept choice** - Analyse source-safe fictional product evidence, distinguish observation from inference.	Develop specifications and concepts for a target audience using suitable graphic techniques.	Observation-inference-opportunity table. Outcomes: CMT5-COM-01, CMT5-DES-02, CMT5-ENV-01.
Y9-23	Project/folio	**Research and concept-choice evidence package**	**M03S01: Product research, brief and concept choice** - Complete the section activity, knowledge check and capstone.	Document research, annotated concept development, decision making and evaluation in a folio.	10 checked MCQs. Outcomes: CMT5-COM-01, CMT5-DES-02, CMT5-PMP-01.
Y9-24	Site/theory	**Part hierarchy, cutting lists, parts lists and assemblies**	**M03S02: Parts, cutting lists and assemblies** - Define part, instance, assembly and subassembly.	Plan production through material and parts lists, working drawings and suitable design applications.	Part hierarchy diagram. Outcomes: CMT5-COM-01, CMT5-DEP-01, CMT5-PMP-01.
Y9-25	Practical	**Onshape assembly and list relationship**	**M03S02: Parts, cutting lists and assemblies** - Using a source-safe multi-part model, insert and organise part instances in an Onshape Assembly.	Apply digital modelling and suitable design applications to communicate part and assembly relationships.	Assembly hierarchy screenshot. Outcomes: CMT5-DEP-01, CMT5-DES-01, CMT5-USE-01.
Y9-26	Project/folio	**Parts and assembly evidence package**	**M03S02: Parts, cutting lists and assemblies** - Complete the section activity, knowledge check and capstone.	Document planning decisions, production information and evaluation in a project folio.	10 checked MCQs. Outcomes: CMT5-COM-01, CMT5-DES-01, CMT5-PMP-01.
Y9-27	Site/theory	**Prototype purpose, test evidence, feedback and evaluation**	**M03S03: Prototype pathway, testing and evaluation** - Choose prototype fidelity from the question to be answered.	Develop physical or digital models, test against specifications, use feedback and evaluate possible improvements.	Prototype-purpose choice. Outcomes: CMT5-ENV-01, CMT5-PMP-01, CMT5-IET-01.
Y9-28	Practical	**Digital prototype test and revision in Onshape**	**M03S03: Prototype pathway, testing and evaluation** - Run a source-safe digital test for form, fit, assembly sequence or communication, capture observable evidence.	Use digital modelling, testing, feedback and evaluation to improve a solution.	Digital test record. Outcomes: CMT5-SAF-01, CMT5-DEP-01, CMT5-USE-01, CMT5-ENV-01.
Y9-29	Project/folio	**Prototype-test evidence package**	**M03S03: Prototype pathway, testing and evaluation** - Complete the section activity, knowledge check and capstone.	Evaluate models or prototypes against specifications and feedback and propose improvements.	10 checked MCQs. Outcomes: CMT5-COM-01, CMT5-ENV-01, CMT5-PMP-01, CMT5-IET-01.
Y9-30	Project/folio	**Module review and Project B development checkpoint**	**M03 review and project checkpoint** - Review the research, parts/assembly and prototype packages; record the communication work needed before presentation.	Manage a graphics project through research, planning, evidence, feedback and ongoing evaluation.	m03 review checklist. Outcomes: CMT5-COM-01, CMT5-DES-02, CMT5-PMP-01.

Year 9 Module 4: Graphic Design and Communication

Provisional Year 9 blocks 31-40 - no hour claim

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
Y9-31	Site/theory	Audience, design principles and ethical sources	**M04S01: Audience, design principles and ethical sources** - Define audience through what people need to notice, understand or do.	Apply design principles, briefs, specifications, audience needs and ethical AI use in graphic communication.	Audience notice-understand-act profile. Outcomes: CMT5-COM-01, CMT5-DES-02, CMT5-IET-01.
Y9-32	Practical	Audience-led visual and source audit	**M04S01: Audience, design principles and ethical sources** - Audit fictional source cards for owner, permission, attribution, privacy and cultural uncertainty.	Use symbols, typography, composition and design principles for a communication goal and intended audience.	Source-decision audit. Outcomes: CMT5-COM-01, CMT5-DES-02, CMT5-USE-01, CMT5-IET-01.
Y9-33	Project/folio	Audience and source-ethics evidence package	**M04S01: Audience, design principles and ethical sources** - Complete the section activity, knowledge check and capstone.	Document ethical research, design decisions and reflection in a folio.	10 checked MCQs. Outcomes: CMT5-COM-01, CMT5-DES-02, CMT5-IET-01.
Y9-34	Site/theory	Vector, raster, colour and layout decisions	**M04S02: Vector, raster, colour and layout** - Choose vector or raster from content and scaling needs, connect resolution to intended size.	Prepare and edit images; select formats, sizes and resolutions; use grids and guides.	Vector-raster decision. Outcomes: CMT5-DES-01, CMT5-DES-02, CMT5-USE-01.
Y9-35	Practical	Tool-neutral layout and output proof	**M04S02: Vector, raster, colour and layout** - Create a small screen or print communication using approved software, organise it with a grid and hierarchy.	Produce print- or screen-based graphic solutions using suitable image, colour, format and layout decisions.	Working layout. Outcomes: CMT5-DEP-01, CMT5-DES-01, CMT5-USE-01.
Y9-36	Project/folio	Format, colour and layout evidence package	**M04S02: Vector, raster, colour and layout** - Complete the section activity, knowledge check and capstone.	Evaluate and justify graphic format, colour and layout decisions for purpose and audience.	10 checked MCQs. Outcomes: CMT5-COM-01, CMT5-DES-02, CMT5-USE-01.
Y9-37	Site/theory	Purposeful motion, portfolio curation and audience-facing presentation	**M04S03: Motion, portfolio and presentation** - Use motion only for a named communication job, plan sequence through a storyboard and provide a static or text alternative.	Use storyboards, framing, motion, 3D CAD animation and suitable formats where they improve model communication.	Motion-purpose decision. Outcomes: CMT5-COM-01, CMT5-DES-02, CMT5-IET-01.
Y9-38	Practical	Storyboard, accessible sequence and portfolio assembly	**M04S03: Motion, portfolio and presentation** - Build a short communication sequence that reveals, compares or explains change.	Use storyboard, framing, movement and 3D CAD animation to communicate a model where appropriate.	Six-frame storyboard. Outcomes: CMT5-COM-01, CMT5-DEP-01, CMT5-USE-01.
Y9-39	Project/folio	Collaborative critique and evidence-led revision	**M04S03: Motion, portfolio and presentation** - In a teacher-managed collaborative critique, peers identify the intended audience takeaway, one clear evidence link and one gap.	Work collaboratively, integrate feedback, manage design decisions and document evaluation.	Peer-feedback record. Outcomes: CMT5-COM-01, CMT5-DES-02, CMT5-PMP-01.
Y9-40	Project/folio	Final section package, module review and Year 9 handoff	**M04 review and project checkpoint** - Review all three packages and curate the Year 9 Project B evidence trail from brief and audience to evaluation.	Present, evaluate and reflect on a communication technology project through a supporting folio.	10 checked MCQs. Outcomes: CMT5-COM-01, CMT5-ENV-01, CMT5-PMP-01, CMT5-IET-01.

Year 10 CMT5 transition allocation - Part 1

Existing sister-site section identity is preserved; all CMT5 allocations remain planned-transition until independently accepted

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
10.1.1	Site/theory	Safety signs and visual conventions	**Y10-M1-S1: Safety signs and visual conventions** - Audit the existing section against the CMT5 principles core; separate visual communication from local WHS authority.	Risk management, safe practice, visual conventions and ethical communication.	Existing section package to be CMT5-audited. Outcomes: CMT5-SAF-01, CMT5-COM-01, CMT5-DES-01.
10.1.2	Practical	Vector graphics workflow	**Y10-M1-S2: Vector graphics workflow** - Use the approved companion graphics package for vector construction and document design decisions; any CAD work remains Onshape only.	Graphic design tools, suitable formats, image construction and communication for purpose.	Practical and folio evidence Teacher to confirm. Outcomes: CMT5-DEP-01, CMT5-DES-01, CMT5-USE-01.
10.1.3	Project/folio	Audience, culture and IP	**Y10-M1-S3: Audience, culture and IP** - Refine graphic communication for audience, culture, privacy, intellectual property, ICIP and responsible AI use.	Audience, design principles, ethical source use, cultural sensitivity and emerging technology impacts.	Section package and project folio transition required. Outcomes: CMT5-COM-01, CMT5-DES-02, CMT5-ENV-01, CMT5-IET-01.
10.2.1	Site/theory	Spatial and architectural research	**Y10-M2-S1: Spatial and architectural research** - Use authorised architectural sources to analyse users, spatial relationships, context and environmental implications; local project and plans Teacher to confirm.	Drawing systems core, architectural context, audience, function and environmental considerations.	Source register and research evidence Teacher to confirm. Outcomes: CMT5-COM-01, CMT5-DES-02, CMT5-ENV-01, CMT5-PMP-01.
10.2.2	Practical	Onshape drafting and views	**Y10-M2-S2: Onshape drafting and views** - Develop coordinated Onshape views and drawing information using the verified school template; do not infer standards settings or dimensions.	CAD drawing systems, coordinated views, conventions, dimensions and technical communication.	Onshape drawing evidence after template confirmation. Outcomes: CMT5-SAF-01, CMT5-DEP-01, CMT5-DES-01, CMT5-USE-01.
10.2.3	Project/folio	Sustainability and context	**Y10-M2-S3: Sustainability and context** - Evaluate purpose, function, environmental considerations and professional coordination; connect findings to project folio decisions.	Environmental impacts, project management, roles, feedback and evaluation in an architectural context.	Year 10 Project A folio allocation - final brief Teacher to confirm. Outcomes: CMT5-COM-01, CMT5-ENV-01, CMT5-PMP-01.

Year 10 CMT5 transition allocation - Part 2

These are transition allocation rows, not approved local periods or hours

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
10.3.1	Site/theory	Projection and freehand communication	Y10-M3-S1: Projection and freehand communication - Revisit drawing-system choices and use freehand communication to explain engineering form before detailed CAD development.	Drawing systems core, projection choices, sketches and coordinated graphic communication.	Existing package to be CMT5-audited. Outcomes: CMT5-COM-01, CMT5-DEP-01, CMT5-DES-01.
10.3.2	Practical	Onshape modelling and manufacture context	Y10-M3-S2: Onshape modelling and manufacture context - Use Onshape to develop and test model intent while keeping materials, manufacturing processes and local controls source-bound.	Engineering drawing context, CAD modelling, suitable technologies and safe practical decision making.	Model/version evidence; project authority Teacher to confirm. Outcomes: CMT5-SAF-01, CMT5-DEP-01, CMT5-USE-01, CMT5-ENV-01.
10.3.3	Project/folio	Dimensions, assemblies and motion	Y10-M3-S3: Dimensions, assemblies and motion - Coordinate part and assembly information, use Onshape motion only as digital evidence and identify limits on physical or compliance claims.	Dimensions, standards, assemblies, animation and current/emerging production technologies.	Year 10 Project B folio transition required. Outcomes: CMT5-COM-01, CMT5-DES-01, CMT5-IET-01.
10.4.1	Site/theory	Brief, criteria and constraints	Y10-M4-S1: Brief, criteria and constraints - Define a teacher-approved negotiated scope, audience, criteria, constraints, sources and safety boundary before development begins.	Graphics principles core, briefs, specifications, risk, audience and ethical research.	Approved scope record Teacher to confirm. Outcomes: CMT5-SAF-01, CMT5-DES-02, CMT5-PMP-01.
10.4.2	Practical	Onshape-led digital development	Y10-M4-S2: Onshape-led digital development - Develop, version and test the negotiated solution in Onshape for any CAD component; record milestones, dependencies and feedback.	Technical and practical skills, software selection, project management and iterative design development.	Versioned development evidence. Outcomes: CMT5-DEP-01, CMT5-DES-01, CMT5-USE-01, CMT5-PMP-01.
10.4.3	Project/folio	Presentation and evaluation	Y10-M4-S3: Presentation and evaluation - Curate the project evidence trail, present for the intended audience and evaluate against criteria, feedback, impacts and technology choices.	Project folio, presentation, evaluation, environmental implications and emerging technology impacts.	Year 10 Project B folio and acceptance evidence Teacher to confirm. Outcomes: CMT5-COM-01, CMT5-DES-02, CMT5-ENV-01, CMT5-IET-01.

Master approval still requires: confirmed 200-hour year split and timetable; four local project briefs and folios; Year 10 CMT5 backward-map and independent acceptance; practical/project majority calculated by hours; authorised assessment schedules; current WHS and drawing-standard controls.
